Geneva, May 4<sup>th</sup> 2010

## **Postgraduate training in psychiatry and psychotherapy**

Dear Sir, Dear Madam,

The Department of Psychiatry of the University Hospitals of Geneva offers a full postgraduate training in psychiatry and psychotherapy.

This theoretical program accredited by the Swiss federal authorities is in concordance with the European standards for this discipline. It covers a 5 year period for a total of 600 credits. It may also be followed during a one year period during the postgraduate training for another medical specialty.

The Department of Psychiatry recruits every year more than 30 doctors for its various departments and units who follow the curriculum of the postgraduate education once per week for a half day.

We would like to extend our call for application at any licensed physician of the European Union. Therefore, we would kindly ask you to relay, if you consider it appropriate, this information to any person, association of physicians and / or institutions who may be interested by this opportunity.

Candidates should submit their applications no later than the **15<sup>th</sup> of November 2010** for an appointment starting on October 1<sup>st</sup> 2011. Excellent knowledge of French is required.

The websites of the department <http://psychiatrie.hug-ge.ch/> and of the postgraduate education <http://formation-postgrad-psy.hug-ge.ch/> will give you more details about the content of our curriculum and the training for specialization in psychiatry and psychotherapy of the University Hospitals of Geneva.

I remain at your disposal for any further information you might require.

Kind regards,

Prof. Panteleimon Giannakopoulos

Please send applications to :
